COMING SOON!!! Robert E. Short, Director of Planetary Communications Group, San Jose, Calif., will speak in Phoenix on or after April 20th. You will be notified of time, place and exact date when arrangements have been completed.

Mr. Short has talked before many groups and organizations across the U.S.A. and has appeared on many TV and Radio programs. He has been associated with the field of Archeology for many years, and has taught this subject. Mr. Short will lecture on the subject of "Revelations and Prophecies."

DON'T MISS THIS LECTURE!!!

We are happy to welcome Marcia M. Michelle of Phoenix as a new member of our Associate Division.

THANKS!!!!!!!

To you, Jack and Ann Myers, for opening your home and lovely back yard to those who wished to attend the Sunday afternoon lectures of Michael X and Dana Howard when they were in Phoenix.

To you, Michael X for your fine article, "Strange Things are Happening", to be found on page 7 of this issue. We will be looking forward to reading your next contribution, "Spaceship Sightings... Confidential Report".

To you, Associate Member Donald Lockwood of Eagle Mountain, Calif. for finding time to write your interesting article on the "Mystery Spot" at Santa Cruz.

## NOTICE!!!

There will be no regular business meeting in April, because of the two lectures scheduled so close to that date.

Also, for the summer months, regular monthly meetings will be held at the home of President Jack Myers, 6049 N. 22nd Avenue, Phoenix.

## DANA HOWARD LECTURE

The small but attentive audiences who attended the Dana Howard lectures on March 11th and 12th were well rewarded. Both were on different aspects of the challenge of the Space Age. Mrs. Howard said the Space People have temporarily broken their contacts with us because we have not tried to advance ourselves to meet this challenge. Now it would be necessary for us to make what advancement we could without their aid and assistance.

On Sunday afternoon she told us we need Space Age Education to help us prepare to enter the next dimension. If we are not able to meet the coming trials, we will recede into another Stone Age.

Mrs. Howard exhibited a number of really beautiful pictures created through the help of "higher forces." Both portraits and abstractions were shown, and she instructed those present on how they, too, could create their own "spirit pictures."

## NOTICE:

JULIA PETERSON OF

2239 N. 29TH ST.

APT. 3, PHOENIX, IS

OUR NEW LIBRARIAN.

## MICHAEL X LECTURE

Michael X gave two fine, well-attended lectures on January 30th and 31st. On Saturday night he predicted many things to come as revealed by Nostradamus and the Holy Bible. Those present were amazed to hear how he believed World War III would be started and by whom, and how many of the recent saucer sightings in the South American skies could be traced to the same source.

On Sunday, his talk was entitled "The Invincible Man", and he revealed ways in which we could adjust and live in the New Age World. How many of you have continued to use the method he revealed to keep your body in perfect balance? And how many of you have taught the method to at least one other person as you promised?

## S.R.A. LENDING LIBRARY

Did you know the Spacecraft Research Association has a lending library available for use of our members? This is also open to the general public, and is another service available in addition to titles on sale for those wishing to add to their "Space Age" Library. Rental fees are very nominal, only 25 cents a month, and the books may be obtained from JULIA PETERSON our Librarian, either at her home or at any of the meetings or lectures.

There are about twenty-five different books available at the present time, and includes titles from authors such as Williamson, Keyhoe, Dana Howard, Levi, Allingham, and other well-known writers. A good variety of books on spacecraft is available, as well as those on more spiritual topics.

## THE MYSTERY VORTICE OF SANTA CRUZ, CALIFORNIA

By Donald Lockwood  
Eagle Mountain, Calif.

Having been a flying saucer believer and investigator since my first sighting in 1953, I was very fortunate to hear about the Santa Cruz Mystery Spot from an old friend of mine, Marion E. Swan, of Hayward, California. So in 1959, on my vacation we visited the "spot". In fact, I later returned several times to this private park, and each time was truly amazed at what I saw.

As it so happened, the Manager of the "spot" was there at the time. He is a very congenial man by the name of Edmond L. Jackson, and on my first visit I said to him, "I can't know what this is here, but I do know it has something to do with flying saucers." Evidently I hit a tender spot when I said this, for he removed a letter from his pocket from a Mr. Fredrick G. Hehr, who had written him in regard to this mystery vortice. Mr. Hehr mentioned a number of amazing facts in this letter; namely:

- 1) He had investigated these vortices for over fifteen years.
- 2) They can be found all over the World.
- 3) They usually are evenly spaced along straight lines, somewhat like the lines of latitude and longitude.
- 4) Flying saucers have been noted to follow these lines and make right angle turns where such lines cross.
- 5) The activating agent of these spots is a visible core of metal of an unknown order to us.
- 6) The cores act as vortices for one to possibly several types of earth currents as yet unknown to Science, and these cores act somewhat as a straight magnet, all manifestations being derived from this action.

7) Birds and other animals are very strongly affected by these

forces. Homing pigeons lost their orientation when over these places. A friendly dog or cat will suddenly turn on its master in attack.

Actually the greatest phenomenon of the "spot" is the Human Body appearing to increase or diminish in size. Over the strongest areas of the "spot", by actual measurement the body may either lose or gain 7.1 inches in height according to its location.

During the years of 1959 and 1960, when I again returned to the Santa Cruz area, I tried to run down all the information I could find on what the vortices actually were and what they meant. I found very little data available on the subject except the commercial photographs and literature sold at the park.

In 1960, Mr. Jackson gave our family a very nice private tour of the area. I then returned three more times to actually check on what I had seemed to experience. Finally I stated in amazement, "The physical body actually loses and gains in dimension here, doesn't it?" And Mr. Jackson replied, "Yes, that is true."

These are the tests I made, and if anyone can see flaws in the method, I'd be glad to hear from that person.

At the Mystery Spot there are several places where wooden planks have been laid across the uneven ground. They are level to the eye and to a carpenter's level. When two people stand on the central plank at opposite ends one will become 7.1 inches shorter, the other 7.1 inches taller, making a difference of more than 14 inches between the two while they are in those positions. To each, the changed appearance of the other is astounding! The one has become a giant, the other a dwarf!

I watched my children move about on this plank, and it was positively

## Meteorite Chips Indicate Life On Another Planet

NEW YORK (AP) — New signs of life from somewhere in space have been found in chips of a meteorite that fell to earth 97 years ago, scientists reported yesterday.

This may be the first concrete evidence that life exists or did exist on some other planet than earth.

Traces of wax-like substances were found in the meteorite, substances that had their origin in living matter, the scientists said.

The meteorite sample also showed a high content of organic carbon, a raw material of life.

The wax-like substances, hydrocarbons, amounted to a few parts per thousand in the meteorite chips. In most earth soils it is measured as less than 50 parts per million. Other hydrocarbons similar to those found in plants and animals were also detected.

Where on earth would amounts of the hydrocarbons be similar to the amounts measured in the meteorite? Perhaps in swampy areas. One swamp in Sumatra has soil with a hydrocarbon content of two parts per thousand.

The meteorite fell near Orgueil, France, on May 14, 1864. Chips from one fragment were examined by Dr. Bartholomew Nagy and Dr. Douglas J. Hennessey, Fordham chemistry professors, and Dr. Warren G. Meinschein of Esso Research and Engineering Co. The three made the discovery.

## Soviet Cosmic Ray Mirror 'Possible'

LONDON (UPI)—A British space scientist said yesterday the Russians have taken the first step toward orbiting giant reflectors capable of concentrating the sun's cosmic rays on an earthly target and burning man and matter to a crisp.

But L. J. Carter, secretary of the British Interplanetary Society, estimated it would take at least 15 years to perfect such a fear-some weapon.

Carter has written or edited several books on space exploration, including "Realities of Space Travel," and organized the annual International Astronautical Federation meeting here in 1959. The British Interplanetary Society includes many of the nation's leading scientists.

CARTER WAS commenting on a statement by Soviet scientist Ari Sternfeld that recent Russian space successes proved "beyond doubt" that it now is possible to orbit huge space platforms.

Sternfeld said this had been demonstrated by the successful launching of the 7.1-ton sputnik

Feb. 4 and the piggy-back rocket that hurled the Soviet space ship toward Venus.

"It's a certainty that the Russians are now thinking about using such a space platform as the base for a large saucer-shaped lens or mirror to reflect the sun's rays to earth," Carter said.

"THIS IS VERY theoretical now but will first be seen in modified form for weather control."

He said the Russians probably would perfect such a weapon "under the guise of weather control, to deflect cyclones, for instance."

"But such a technique would have very definite military applications," he said. "It could cause a great deal of damage and could burn up people underneath."

## Space Chief Hints Speed

GREENBELT Md. (AP) — The new head of the National Aeronautics and Space Administration said yesterday the pace of the nation's space program will be stepped up.

James E. Webb made the statement but did not elaborate as he helped dedicate a new \$27 million center for space flight research and development. The center is named in honor of an American rocket pioneer, the late Dr. Robert H. Goddard.

The agency describes Goddard as the man "who first demonstrated the practicability of space flight."

The dedication took place on the 35th anniversary of the world's first flight of a liquid-propelled rocket engine conceived by Goddard of Worcester, Mass. Goddard often was ridiculed for dreaming of possibilities of rocket flight beyond the earth's atmosphere.

## Radio Signal Bounced Off Planet Venus

PASADENA, Calif. (AP) — Scientists have for the first time received a strong, clear radio beam bounced off the planet Venus. The 70-million mile round trip took only 6½ minutes.

The transmission was completed March 10 at the jet propulsion laboratory's Goldstone tracking station in the Mojave Desert.

Signals have been bounced off Venus before, but these were the first detectable without elaborate analysis and processing.

Venus' cloud cover has long hindered scientists' attempts to observe it. One theory is the clouds absorb the signals. The laboratory used a 2,388 megacycle-per-second signal with a conical beam 14 degrees in width, using about 10 kilowatts of power.

The above photo is a reproduction of one of a number of authenticated pictures in Michael X's new book, WE WANT YOU! and was taken in 1958 near Trinidad Island off Brazil.

Michael X informs us his latest book, RELEASE YOUR COSMIC POWER, is now out. Full information can be obtained from: Futura Press, Box 38594, Los Angeles 38, California.

### STRANGE THINGS ARE HAPPENING

By Michael X Barton

MANY HUMAN BEINGS on earth are puzzled, perplexed, and completely "mystified" by strange happenings of our times. The appearance of Unidentified Flying Objects in our skies, for example, is perhaps the biggest MYSTERY of all. That is, it is a MYSTERY to the great majority of mankind on Earth, but those of us who have taken the time to investigate the subject are convinced that it is NOT A MYSTERY AT ALL. No! It is simply a COSMIC PLAN being worked out...through the use of Cosmic SPACESHIPS and Cosmic-minded Space People...to awaken all of us Earth beings to a new and greater UNDERSTANDING.

In this article I shall give you a few simple illustrations of some of these so-called STRANGE happenings. I think you will find them as interesting as I myself did when first they were brought to my attention. But first, let me emphasize my basic thought:

That "UFO's" or Unidentified Flying Objects, are no longer "unidentified" to those who have studied along this line for several years as I and numerous other persons have done. We now come right out and call the UFO's SPACESHIPS from other worlds... because that is what we honestly believe them to be. Some of us have had personal experiences and contacts with people who fly in those spaceships, and we have a pretty good idea of where those spaceships are coming from and what kind of individuals are piloting them.

I think that the first thing I had to learn about spaceships is this: They are coming from a number of places not just from one certain place. When this idea hits you for the first time it is rather stunning, but it is true and should be recognized. Some of the so-called FLYING SAUCERS or spaceships come from planets in our own solar system. Some come from galactic systems we don't

CONT'D NEXT PAGE

# STRANGE THINGS ARE HAPPENING CONT. FROM PAGE 7

even know anything about, and some come from systems we are aware of. But it is a most interesting fact that a few of these strange objects are built on Earth by earthly governments who are finally "getting wise" to the idea that the earth is being VISITED by inter-planetary spacepeople who long ago developed THE FLYING DISC as a perfect form for space vehicles. So the Earth governments are racing furiously to COPY those "out of this world" designs. It is true that we, the USA, now have a flying saucer, which the Air Force has invested a lot of money to build. But this flying machine is not at all designed to travel in outer space as the ones do which are coming from other planets. Fact is, the Air Force Saucer is a noise-maker in flight. It whines like a toy musical top, and is not capable of speeds much beyond the speed of sound.

For my money, I feel this Air Force flying saucer is simply a cover-up by the government, to give the good citizens of Earth a feasible REASON for the appearance of thousands of UFO's in the skies during the past fifteen years. The public is supposed to think that all of the UFO's we have seen are really earthbuilt devices, produced by our own industrious and super-intelligent Air-Force Officials.

Now if we stop for a minute and look at this whole matter in an open-minded way, we find it difficult to escape one idea. Most of the spaceships do not originate here on Earth, but have their point of origin far beyond it... on other worlds...on other solar systems in space. IF THAT IS SO, we next must ask ourselves..... WHY ARE THEY PEEKING IN ON US?

I think you already know a few good reasons WHY they have been

visiting this planet Earth with such systematic persistence. One good reason is the ATOMIC BOMB. Ever since we discovered that horrible weapon and exploded it at Nagasaki in 1945, the spaceships have been looking us over carefully night and day. We are now a threat to their way of life as well as to our own.

Is there another reason? YES! The old Piscean Age is dying. The new Aquorian Age is now being born ...or, to put this more accurately, by the Year 2001 A.D. the NEW AGE begins. But even now we are being influenced by the NEW AGE vibrations, and that influence is increasing day by day. Earth itself is going into a NEW ARC in the Universe. Its vibration is being stepped up. A new and higher level of LIFE is going to occur, and you are going to see a lot of CHANGES from now on. You'll see changes in heating, lighting, forms of power used in cars, planes, boats, etc. Even our MONEY SYSTEM will change in time, but in a gradual way that won't hurt Mankind too much. The MAIN THING is, this new vibration we are entering into is stronger in LIGHT, LOVE, and LIFE: and some Earth people are not going to be able to stand it very well, especially if their way of LIFE hasn't had much TRUTH in it! That's why our job now is to get ourselves in step with these CHANGES.

Sorry to hear Johnny Botsford broke his arm last month. We hope it will soon be just as good as new.

From the Open Letter, Feb. 1961:

"The Tasmanian Secretary of the World Council of Churches, Rev. Lionel Browning, reported having seen, on Tuesday 4th Oct., near Cressy, a 300 ft. cigar-shaped mother-ship and five or six flying saucers, EACH about 30 ft. across. He was certain they were space craft. His report has been substantiated by other local residents; and, it is reported, government officials are taking it seriously....

From the Southside Spiritual Chapel Newsletter for April, 1961:

"Do we ever speak of 'weighing' or 'measuring' anything Spiritual? We 'weigh' one's reasons, or arguments; we 'take a man's measure' when we form an estimate of his character and abilities. We also use the expression, 'I've got that person's number!'"

"The thought of Spiritually weighing and measuring is always involved where the words are used in the Bible. So also 'to number' in the Bible involves the Spiritual idea of anything and arranging it in order.

"There are 5,943 verses in the Bible written in numerology.

"To 'number' Spiritually is to know the QUALITY of a thing; also, every number involves the idea of some special QUALITY."

The above is quoted from Robert Starkle's work in THIS AGE THINKING.

## The Editor Speaks To YOU

Do you think nuclear power is great? You're right! It is great, very great! BUT compared to the Infinite Energy which constantly flows through your mind, and of which you are the undisputed ruler, nuclear power, is as a weak and helpless infant in the arms of a mighty giant.

Did you ever try to give a present to someone who didn't want to receive it? Upsetting isn't it? Yet that is exactly what you are doing every day, refusing the gifts that are rightfully yours!

Today you live in a world of conformity, you hide your ambitions, desires and ideals, particularly if they are a little different and you think of your fondest hopes as cloud nine daydreams. If you can forget public opinion, even for a moment, you are of a rare class.

You should seek and gain a safe, sane, development of that GOD given power you can enjoy using. Power is a steep word, but that is exactly what it is! Psychic Talent, is power!

AND woe be to him who abuses it. Like electricity, fire, water or any natural force, it is no plaything. The misuse of it can be as disastrous as lightning.

The key is your attitude... your purpose! Keep it pure and well intentioned and you will have no problems. Psychic power is helping you now!

You can do anything, when you truly want to do it. There are no limits. Nothing is impossible to GOD!

Go quietly about your business... Relax... and see it through... Convinced that you are guided... In every thing you do...

Sincerely,  
Vic Curtis

# 'Little Men' Are With Us Now

Little men from outer space are here to tell us how to cure many ills and diseases.

You may not believe it, but workers in the Pure Food, Drug, and Cosmetic Administration have heard the "little men" here, according to Gordon Wood, director, Los Angeles District, of the United States Food and Drug administration.

Mr. Wood says, "We're not looking for these people yet, frankly right now if we found them we would be scared to death. But people are telling us these 'little men' are here to teach us how to make certain devices to treat ills and diseases. They figure these 'people' are smarter than we are because they came from their planets to earth before we had a chance to go to their planets."

These are some of the things people in the administration are up against.

Speaking on "Quackery In Medicine" at the Health-O-Rama show, Mr. Weed said, "Quackery keeps pace with the scientists. As fast as they discover a real miracle cure quacks come up with a dozen 'miracles' that couldn't cure anything.

"People are so ready to accept miracles in science when somebody comes along and tells them a new machine has been invented.

"They see the miracles of television and communications in electronics and believe electronics can cure cancer. There are many false claims made in electronics and medicine right now.

### MYSTERY VORTICE - CONT. FROM PAGE 5

uncanny. Most unbelievable of all, photographs taken there turned out exactly the same as what the naked eye had seen.

But I still wondered, "Perhaps it just seems that one person gets bigger and the other becomes smaller. So I tried this experiment with my wife Joan.

She started moving slowly from one end of the plank while I came from the other end. When we met in the center my eye level was considerably above hers. However, possibly I was just imagining my eyes were way above hers. So I kissed her, at the same time putting my hand at the back of my head. Thus, I felt my head moving, that is, bend down, to perform that enjoyable osculatory act.

Then we exchanged places and kissed again. This time my hand did not feel my head bend down. In fact, My wife, who is several inches shorter than myself, had become the same size, and I could look directly into her eyes!

IF MY EYES LIED TO ME, DID MY HAND AND MIND ALSO LIE?

Cont'd Next Issue--Strange Visitors

From the Little Listening Post  
Jan.-Feb. issue:

Four villages in the Nile Delta have free electricity because the atmosphere above them is so highly charged that by running an aerial aloft they catch enough to run their lights and radios - engineers can't explain it.

Scientists now talk of a Mystery Force in Space that makes solid matter lose weight, reversing the law of GRAVITY...300 lb. Discoverer XVII caught mid-air then weighed only 175 lbs. A University Prof. says may cause complete revolution of thought concerning GRAVITY, the nature of hi-energy belts surrounding Earth and the very properties of Matter itself!

As evidence of the growing popular interest in the hidden powers of the mind, two widely circulated magazines have recently published articles on this subject.

This Week Magazine published a two-part series on February 19th and 26th concerning studies of extrasensory perception at the University of Utrecht in Holland, where thousands of cases of ESP have been uncovered and documented.

The March issue of McCalls Magazine carries an article entitled "The Sixth Sense Called ESP" by Dr. Louisa E. Rhine, wife of the Director of the Parapsychology Laboratory at Duke University.
